Monthly Themes

July 2010 (2 week themes)

“The Wild, Wild West”

Howdie! That’s cowpoke talk for “hello.” This them is all about the old west. We’ll discover how gold was found in the rivers of California, what people used to wear and eat. Classes will schedule “Rodeo Roundups!”

“Live and On Stage!”

Lights, Camera, Action! Just imagine playing a part in action-packed movie...what part would you play? We will make props and costumes during our few moments in the “spotlight.” See teachers for show times.

August 2010 (2 week themes)

“The Time Machine”

What would happen if we could design a machine that would transport us back in time or into the future-where dinosaurs once walked and into far away galaxies? We will use our imaginations to explore the possibilities.

“Camping Capers”

Pitch your tents and get ready for the great outdoors! We will combine science as well as natural elements as we embark on “Camp Westminster.” Projects will be designed around the great outdoors!

September 2010

“Back to School”

Many of us consider September as the beginning of a new school year and the perfect opportunity to make new friends. In the classroom, we will create an atmosphere of cooperation, compassion, sharing and kindness which are all conducive to learning.

October 2010

“Wild Things!”

This month we will be traveling through the colorful jungles and forests of South America and Africa, trekking through the desert in search of wild animals and plant life. We’ll explore the behaviors and habitats of these unique creatures

November 2010

“All Around the Town”

There are so many things to see and do around our city. It is so exciting! San Diego is a very big city with skyscrapers, parks, museums, beaches and more. We are going to find out who works in these places and what they do.

December 2010

“The Gift”

This month we will be talking about gift giving and receiving. A gift can be an expression such as a smile or a hug. It can also be given to anyone at anytime. Gifts can also be bought and hand-crafted. We will discover some creative ways to give gifts.

January 2011

“Into the Forest”

Trees are very a very important part of a forest. However, they are not the only things that make up a forest. Many other plants and animals cohabitate with the trees to help the forest stay healthy and to flourish.

February 2011

“My Amazing Body”

This theme is all about how our body works and how what we can do to keep it healthy such as exercising, eating healthy foods and brushing teeth. We will learn about how our body fights off germs.

March 2011

“We’re On Our Way to...Japan”

Have you ever wondered why there is a giant red spot on the Japanese flag? Japan is called “Nippon”, which means, “where the sun began”. We will be taking one of our infamous make-believe trips to Japan where we will learn about its culture, people and wonderful food!

April 2011

“Barnyard Talk”

Children enjoy learning about animals, especially the babies. We will find out which animals live on a farm, what they like to eat, where they go to sleep and who takes care of them.

May 2011

“Letting Loose with Mother Goose”

Mother Goose rhymes have been a part of children’s literature for many years. This month, we will have fun acting out some of the rhymes as well as learning about the characters in the rhymes, themselves. We will be composing our own rhymes and creating colorful art projects.

June 2011

“Ocean Discoveries”

Oceans are filled with many different creatures. Discovering what they are, where they live and what they do is our mission this month!
